

# DISASTER RELIEF

*Help those in need*

## JANUARY 23, CHAINSAW CERTIFICATION

PLACE: FUMC KAUFMAN, FELLOWSHIP HALL

TIME: 7:00 PM

One of the programs of the ERT is a Chainsaw team. There will be a certification training meeting for those interested in working with a Chainsaw in the event a disaster presents needs for such work. This training is for ERT certified members and members who are 18 and older that can not give time for ERT, but would want to participate in local events. Only ERT certified can respond to events outside our Church District. This is a two part training session. Part I is going over safety and why such a program is needed. Part II is actual field training working with others. This part will be actual usage of a chainsaw. Part II will be held January 29 at a local farm.
